

Internet Trolling

By: Wesley

- Internet trolling means someone that posts nasty and insulting comments on videos, pictures etc.

Ex. Your mom resembles a hippopotamus.

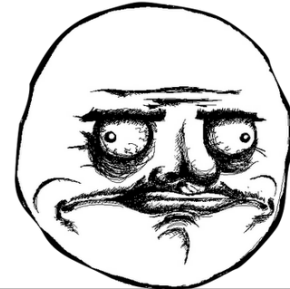

- Some people can "troll" to a certain point where the person receiving the comments will inflict harmful acts on themselves.
- You can be charged for "trolling" people because sometimes they may feel unsafe or even try to hurt themselves because of the things you said.

Ex. In the UK, a young man was arrested after he made fun of youth who died in tragic accidents. He even cyberbullied someone to the point where they actually inflicted harm on themselves, and he was eventually charged with sending 'harmful communications'.

????????????????????????????????????

Profit.

I hope you enjoyed this PRESENTation.
